Re: Wayne Perkins

To Whom It May Concern:

We were having customer and personnel slipping problems on our tile floor at our restaurant and were concerned about injury and liability problems, when we called Wayne Perkins of Slipstop in Coppell, Texas.

After explaining our problem, Mr. Perkins made suggestions that made good business sense. He promptly came to our store, professionally cleaned and degreased our tiles, applied Slipstop on the surface, all in one night and we never missed a minute of business. He also made recommendations on cleaning and application of degreaser information, which we have continued to utilize.

Our floors are much nicer, brighter and best yet, not slippery, and has a five year guarantee. WAY TO GO WAYNE! I would recommend Wayne and the Slipstop process to anyone with hard to clean, slippery floors!

Sincerely,

Mike Graves
Secretary/Treasurer
