Re: Wayne Perkins, Slip Stop USA

To Whom It May Concern:

This is a letter of recommendation for Wayne Perkins and his company Slip Stop USA. Wayne just completed applying his non-skid treatment to five of our tiled elevator lobbies, six elevators, and the main reception lobby and hallways to our recreation facilities.

Wayne worked at night for the convenience of our residents, and he worked quickly. He did everything he said he would do and more. The first thing my maintenance men did when Wayne was done was to test every floor he treated. They applied a good coating of water, and found they could not slip, try hard as they might. One elderly resident who complained constantly about the slippery tile in her lobby, has given Wayne her blessing. She says she now has confidence coming home on a rainy day without worry of falling. This is a very economical alternative the very expensive solution of installing new tile in our buildings.

I found Wayne to be as hard a working, honest, and conscientious contractor as any I have used, and would recommend him and his product to anyone interested in procuring his services. Please call anytime if you wish to speak to me personally.

Sincerely,

Ron Ditch, Manager
Office: (941) 349-2001
